Photo Tip Sheet

- Send photos we can help!
 - **Where do I send my photos?**
 1. Send all digital photos to quoterequest@yescjt.com
 - **What is the best way to take the photo?**
 - **IMPORTANT: DO NOT** take photos from a standing position. Photos are best taken when your eyes are level with the seat of the chair.
 1. Before taking the photos remove all items from the chair that could block us from seeing a clear view of the chair, bed or walker. (i.e. backpacks, blankets, cup holders etc)
 2. If possible place the chair against a light color, solid background
 3. Take the photo in a well lighted area or use a flash
 4. Cell phone photos are not accepted

What type of photos should I take?

1. Take front and side photos of the person in the chair while **another person is holding the device in the desired position.** (If you do not have the device use a book or other object that can represent the device)
2. Take photos of each side of the chair.
3. Take photos of the front and the back of the chair.
4. If the chair tilts take photos of the chair in a tilted and upright position.
5. Photos should show a clear view of the entire chair from top to bottom.
6. Take a few closer photos of the seating system tubing and other areas you think may be possible mounting locations. **Please, remember** not to close or the perspective will be lost.
7. If the client uses a lap tray please be sure to take photos with the lap tray on.
